

EPILOGUE

Imagine yourself as a new-born baby. You are on the way home from the hospital. You see buildings and telephone poles out the window of the car, yet you know nothing of this new world you have entered. You grow a little older and learn to speak a few words. Just when you begin to feel secure, you hurt yourself by skinning your knee or burning your finger on your mother's stove.

Later, you learn about death. Just when you thought you were going to learn that all the world was safe, you found out that there is something terribly wrong. Nothing seems to be for sure anymore. Is there any way to fix it? No. The more you learn about the intricate complexities of life, the more impossible it is to understand how to revive it once it is truly gone. Everything is winding down! Thermodynamics—Maxwell's demon—yes!

This was your life, until one day you discover the one true God, whose Messiah has promised to put this troubled world back together again. We can trust God's Messiah because He was foretold, in every detail, hundreds of years prior to His birth!

He did what He said He would do during His First Advent 2000 years ago. So we know one day soon He will remove the curse of death and bring us into a world of everlasting harmony; the world we thought we had been born into the first time around, when He returns in glory. He has promised to do this for us at His Second Coming, which cannot be more than sixty years away and may be as close as thirty! Incredible!

For 6000 years we have wondered and tinkered in the stone age of knowledge. Now, before the Messiah returns at the end of time, we witness God's words spoken by the great prince, Michael, recorded by Daniel becoming reality: "But as for you, Daniel, conceal these words and seal up the book until the end of time; many will go back and forth, and **knowledge will increase**" (Daniel 12:4 NASB). We see this increase of knowledge occurring now, before our eyes!

View of the planet Mars from the U.S. Viking mission.

We started making cars, antibiotics, trains, computers and telephones, reaching anywhere there was a wire (today, we have even gone wireless). We built planes and space ships which could land on the moon and planets. We built bombs that could destroy all life on Earth if our time were not cut short (Matt. 24:22). As the Messiah foretold in that incredible book we have come to know as the New Testament, our time (of war) will definitely be cut short thanks to Messianic intervention.

Without the New Testament's predictions and its pleasant prophecies of assurance, I would still be waking up in the middle of the night asking myself, "Why am I here? How did humanity get here? What if I die in my sleep? Where will I go? Will I just cease to exist? I do not want to. What happens to people after they close the lid on that long box and start shoveling dirt on top while they are still inside?" What a nightmare!

Now I know about **the prophecies**, since quite a few have come true. Now I know about the promised resurrection and the new body (Rom. 8:23); a body that will never die once I have been resurrected into it (John 5:28-29). We did not get it right the first time, but the Lord is going to do it right for us the second time, if we receive Him and allow Him to forgive us by receiving Jesus! Though there seems to be nothing for sure in this world, everything will be assured in the next.

So now that you have read all of this, don't blow it. Believe in it and receive it before it is too late. Once you have done that, be sure to share with a Jewish friend, as the apostle Paul asked (Rom. 1:16), for God chose a Jew to write the New Testament. Paul wrote over one-half of the New Testament. He was a Jew and he gave his life for you. The Romans executed him for his faith, but not before he wrote those precious promises. Read his message of grace, read his **prophecies**—if for no other reason, read them because he was killed for writing them—so **you** could read them.

If you take that step and buy a New Testament, I suggest both *The Living Bible* and the King James Version (KJV). *The Living Bible* is extremely easy to read and fun while the KJV is very accurate and a must for study!

I have also risked my life, in more ways than one, especially in my forthright statements against Arab terror, to bring these treasures to you. While I appreciate your value of my research, I know that I may one day pay for it with my very life. However, it was worth it to bring this to you so that **your** eternal future will be all the better; because you are worth it! I believe it and I am willing to die for what I believe regarding Messiah Jesus. It would prove wise that we all receive Messiah Jesus while we still can. When we die, He is the

journey's end and we may never pass His way again.
Philip Moore
